# Learning more about ArcGIS Online

KEEP GROWING - " See what others can't "  
Map like a Pro!

People want to professionalize and develop themselves. This is happening more and more digitally. The demand for Geo intelligence is growing enormously.

The demand for training on ArcGIS software and apps also. Esri BeLux therefore offers a digital channel to support all ArcGIS users in their development.

**You** determine the learning method yourself. In other words, the way you want to learn and the time you want to spend on it.

### Self Learning

You choose online training yourself and follows them at your own pace.

### Webinars

Interactive Q&A sessions and inspiring webinar library

### Digital Classroom

An expert will bring you in group to the next level with training and guided exercises

### Digital Coaching

Customized guidance with a personal coach

**We** help you with the learning material and methodology.

**4** different tracks to improve your skills. You can of course also combine them.

- Self learning
- Webinars
- Digital Classroom
- Digital Coaching

Click on a method to see more detail on the following pages

Choose the  
competencies that  
you want to improve

Follow the  
online courses  
of your choice

Ask your questions  
at our free interactive  
Q&A sessions

# SELF LEARNING

Learning at times when it suits you best? Esri BeLux is happy to provide you with an overview of free online courses that you can take at your own pace.

This method is intended for those who want to work from their current competencies and set goals and choose courses themselves.

In the context of ArcGIS Online we have listed them below for you:

## ArcGIS Online Fundamentals

Webcursus:

[ArcGIS Online Basics](#)

[Creating and Sharing GIS Content Using ArcGIS Online](#)

Video:

[Getting Started with ArcGIS Online](#)

[ArcGIS Online: Administration Basics](#)

[ArcGIS Online: Group Basics](#)

[ArcGIS Online: Data Basics](#)

[ArcGIS Online: Mapping Basics](#)

[ArcGIS Online: Analysis Basics](#)

[ArcGIS Online: Sharing Basics](#)

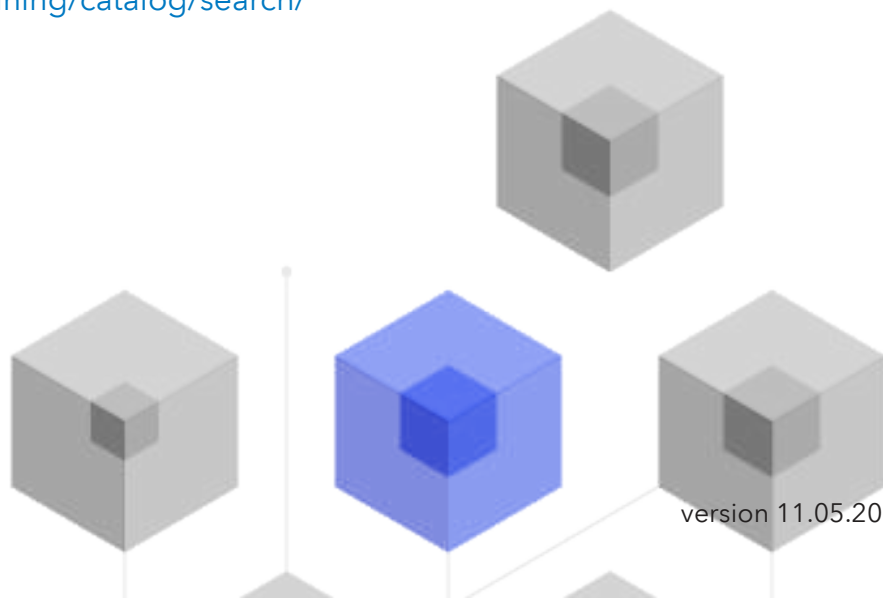

[ArcGIS Online: Scene Basics](#)

[ArcGIS Online: App Basics](#)

You can choose from our selection above or look for a training on the following links:

Use the following link: <https://www.esri.com/training/> to determine which competencies you wish to improve. Discover via the following link the overview with all courses to help you: <https://www.esri.com/training/catalog/search/>

FREE  
interactive Q&A  
session  
(self-learning / webinar)

FREE  
discovery webinars  
from esri Belux experts  
(webinar)

# WEBINARS

## Interactive Q&A sessions

After the self-paced learning you probably still have open questions? Or you have already gained the necessary experience but still have a question here and there?

We offer you the opportunity to follow a **FREE** interactive session

Prepare your questions and send them in advance if possible. Of course you can also ask questions during the webinar.

**Click to register** and to give us your questions:

Most of your questions will be answered at the end of the Q&A session by one of our experts.

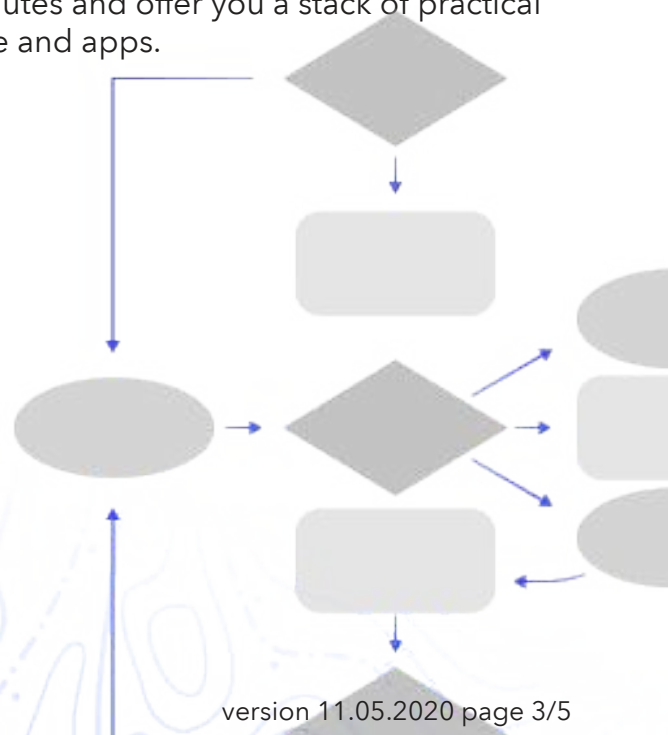

## Discovery webinars from the Esri BeLux webinar library

We offer you as a second learning path FREE webinars if you wish to stay up-to-date on the latest trends in the GIS world. These webinars last 45 minutes and offer you a stack of practical tips to help you progress in your daily use of our software and apps.

Click here to discover them:

Digital Classroom  
choose a course  
with an expert

# DIGITAL CLASSROOM

A third learning method is the digital classroom. Together with fellow students and a trainer, you learn to work (better) with ArcGIS Online.

## Practical details:

- max. 8 attendees per course
- Language: Dutch or French

## Pricing:

- €150,00  
(Prices excl VAT)

Interested or questions?  
Register now.

We will contact you to find a date that best fits the next 2 months.

Together with fellow students and an Esri BeLux expert you will grow to the next level in a web training. You will learn through explanations by our expert, guided exercises and exchange of experience with other participants. You also receive training material and can ask questions after the training.

You can choose from 2 formulas:

### 1/ ArcGIS Online 1/2 day

- Introducing Web GIS
- The web map
- Presenting your web map
- Web apps
- Sharing your content

### 2/ Creating Story Maps 1/2 day

- Exploring story maps
- Preparing and creating a story map
- Evaluating your story map app
- Sharing your story map
- Applying the story map workflow

Get help from your Digital Coach

## Digital Coaching

The coaching session is the fourth learning method designed for clients who want to be helped on a specific project or successfully perform a specific task.

The emphasis is on your development: based on your case, we help you use ArcGIS Online more efficiently and effectively.

A personal coach will contact you to discuss the purpose of the session and schedule it.

You can still ask questions after the session.

Coaching per block of 4 hours: € 600,00

Questions or booking?

## Q&A

### Can I choose to follow the Digital Classroom if I did not follow webinars or self-study?

Customers are completely free to decide which course to choose. After taking a course, they can also choose to take another course.

### What is the difference between the webinar and the Digital Classroom?

In a Q&A webinar we answer questions from participants. It typically takes 45 to 60 minutes. In a digital classroom we bring a group to a next level through explanations, guided exercises, exchange and questions. Depending on the program, it takes from half a day to 3 days.
